

Cover Cropping Plan

Minimum Requirements

On-Farm Climate Action Fund (OFCAF) supports the development of a cover cropping plan by a qualified professional (e.g., agronomist, Certified Crop Advisor (CCA), or Professional Agrologist (P.Ag.)). It is required to submit the Cover Cropping Plan along with the final claim submission.

To meet the minimum requirements for the OFCAF cost-share program for the development of a Cover Cropping Plan, the plan must include the following:

- ☐ The identity of the qualified party who prepared the letter, including name, designation (if the party is a CCA, include the CCA#), and signature
- ☐ The legal farm business name
- ☐ Reference to the location or locations (e.g., address, GPS coordinates, number of acres, field or farm name) where the cover cropping practice is being proposed.
- ☐ Cover crop species selection (refer to the ineligible species listed in the Ineligible Activities and Costs section of the Program Guide)
- ☐ Method of cover crop seeding (e.g., drilled, broadcast, etc.)
- ☐ Timing (e.g., interseeding into standing crop, post-harvest, or frost-seeded, etc.) of cover crop seeding
- ☐ The primary crop that the cover crop will follow
- ☐ Termination timing and strategy, including residue management strategies
- ☐ Herbicide and fertilizer considerations, if applicable
